

Anthony Chhor

Secret Clearance

Software Developer

 (903) 263-9531  anthonychhor27@gmail.com  [LinkedIn](#)  [GitHub](#)

Experienced full stack developer with a military background, skilled in leading teams and demonstrating a commitment to continuous learning and adaptability. Proficient in critical and analytical thinking, with a proven ability to excel in high-pressure work environments. Excellent communication skills, attentive listener, and consistently demonstrated dedication to being a top performer.

TECHNICAL SKILLS

HTML - CSS - Bootstrap - JavaScript - ES6 - jQuery - Ajax - JSON - RESTful API - REST API - Maven - Java SE - Java EE (Servlets, JSP, J2EE) - File I/O - MVC - Spring Boot - Hibernate - MySQL - Thymeleaf - Object-Oriented Programming (OOP) - Test-Driven Development (TDD) - Version Control with Git - Paired Programming - Agile Methodologies - Debugging - AWS Deployment - Apache TomCat - Unit Testing (JUnit)

Exposure to: Agile Management Tools - KanBan for Workflow - Project Management Tools - Github Pages - NPM - Scrum Stand Up - Documentation - Spring Framework

SOFT SKILLS

Collaborative - Peer Review - Innovative - Strong Communication Skills - Teamwork - Builds Relationships - Initiative - Analytical - Flexibility - Reliable - Integrity - Work Independently - Visualization - Virtualization- Willingness to Learn - Collaborate - Problem Solving Skills - Research Skills - Dedicated - Competitive - Self-motivated - Committed - Team Player - Innovative - Independent - Written and Oral Communication Skills - Culture - Fast Paced

Development Projects

HoneyDo Helper(Capstone): [Live Site](#) | [Repository](#)

Worked collaboratively with a group of developers to design, plan, build, and deploy a mobile-responsive full-stack web application. After finalizing a project proposal, we created user stories and developed feature lists, wireframes, storyboards, database diagrams, and a project management board. Through morning stand-ups and afternoon demos, we leveraged an Agile workflow to execute the full development lifecycle through deployment to AWS. [If applicable: Additionally, integrated XYZ APIs for enhanced user functionality.]

Skills: Paired Programming, HTML, CSS, Bootstrap, Java, JavaScript, Spring Boot, Spring Boot Security, API.

Doglister Project Name: [Repository](#)

A simplified version of Craigslist that allows users to post and browse advertisements. The project provides a functional and user-friendly platform for posting and browsing advertisements, while also providing me with experience in web development, database management, and software testing.

Skills: Paired programming, HTML, CSS, JavaScript, Spring, MySQL, and jQuery.

Weather Map Project Name: [Repository](#)

A weather application that gives the forecast for locations around the world. The application is designed with a clean and intuitive interface that allows users to quickly and easily access the information they need. The application makes use of the latest weather data to provide hourly and daily forecasts for a variety of metrics, including temperature, precipitation, wind speed, and humidity.

Skills: HTML, CSS, jQuery, AJAX, and OpenWeatherMap API

Military Experience

Aegis Firecontrolman US Navy - Seattle, WA

- Worked onboard an Arleigh Burke class destroyer, DDG 101, and worked specifically on the SPY-1D(V) radar.
- Performed planned maintenance as well as troubleshooting the electrical equipment with 1,600+ hours of work geared specifically towards the radar.
- Played a very important role of maintaining the radar and keeping it up to standards while being a part of a NATO deployment in 2019 where DDG 101, the ship that I was on, was the flagship.
- Analytical reporting
- Professional communication to superiors and higher ranked military officials and talking to foreign countries during Ops Intel briefs
- Trained a division of 20 sailors.

Professional Experience

Hay Baler - Carthage, TX

- Baled hay during the summers to make enough money for the school year and before sports started. Worked long hours everyday while also attending summer workouts for the sports I played and playing travel baseball

Construction Worker- Shreveport, LA

- During the summer of my freshman year of college, I joined Gene Nims Builders, a renowned construction company based in Shreveport, Louisiana. Amidst swinging hammers and buzzing power tools, I wholeheartedly embraced the world of construction while simultaneously enriching my knowledge through summer classes at the esteemed Stephen F. Austin State University in Nacogdoches, Texas.

Education

Codeup

Certification of Completion

Jan 2023 - Jun 2023

This 5-month coding boot camp teaches full-stack software development through 670 contact hours of hands-on technical training (20% more time than 4-year degree majors require). Students hone skills in modern web technologies, computer science, software engineering, and application architecture while gaining project experience with pair programming, debugging, troubleshooting, agile project management, user stories, feature lists, UI/UX, wireframing, and relational database design.
